

Jakaria Shekh Mahi

IT & Network Infrastructure Specialist | MikroTik Certified Engineer

+880 1859-662922 scoutjakaria@gmail.com linkedin.com/in/jakariasheikhmah

SUMMARY

IT & Network Infrastructure Specialist with 6+ years of experience in MikroTik, BGP, OSPF, MPLS, and ISP Backbone Architecture. Proven track record across 120+ projects delivering high-availability routing and enterprise security.

CORE SKILLS

Networking

MikroTik RouterOS, BGP, OSPF, MPLS, VLAN/STP, VPN, QoS

Security & Firewall

Firewall Config, VPN Security, Access Control, IDS/IPS

Servers & Cloud

Linux Admin, Windows Server, DNS/DHCP, AWS & Azure Basics

Monitoring

Zabbix, Grafana, The Dude, Winbox, Wireshark, PRTG

Soft Skills

Problem Solving, Project Management, Client Support

CERTIFICATIONS

MikroTik MTCNA

MikroTik Academy (2022)

Cisco CCNA

Cisco Networking Academy (2023)

Linux Essentials

Linux Professional Institute

AWS Cloud Practitioner

Amazon Web Services

Fortinet NSE Level 1

Fortinet

EDUCATION

B.Sc. in Computer Science

University of Technology

2017 — 2021

Focus: Networks, Cyber Security, OS, Network Admin

PROFESSIONAL EXPERIENCE

Senior Network Engineer

2023 — Present

ABC Internet Services Ltd.

- Architected and managed MikroTik router configurations for large-scale ISP deployments.
- Configured enterprise OSPF, BGP, MPLS backbones and site-to-site VPN solutions.
- Optimized network traffic, implemented QoS policies, and handled critical troubleshooting.

Network Support Engineer

2021 — 2023

NextWave Communications

- Provided advanced technical support, router setup, and wireless network deployments.
- Implemented corporate firewall policies, intrusion prevention, and bandwidth control.
- Monitored infrastructure 24/7 using Zabbix, Grafana, and The Dude.

KEY FEATURED PROJECTS

ISP · BACKBONE

National ISP Backbone Deployment

Scalable ISP backbone using MikroTik CCR with OSPF, BGP, and MPLS. **(99.99% Uptime)**

ENTERPRISE · VPN

Enterprise Multi-Branch VPN Infrastructure

Secure multi-branch VPN interconnecting 12 remote office sites. **(12 Sites Secured)**

SECURITY

Corporate Firewall Upgrade & IPS

Advanced firewall rules and bandwidth optimization. **(-64% Incidents)**

WIRELESS · CAMPUS

High-Density Wireless Campus Network

Enterprise Wi-Fi across campus with seamless roaming for 12k daily users.

DATA CENTER

Data Center Network Optimization

Optimized core routing for mid-size DC. **(-38% Latency)**
